Oceanwide Expeditions was founded in 1993 and is one of the pioneers in ship-based exploratory tourism in the Arctic, Antarctica and Atlantic Regions. During the repositioning voyages from Antarctica to the Arctic, Oceanwide Expeditions offers every year a fascinating Atlantic Odyssey, a 39-day voyage to Antarctica, South Georgia, Tristan da Cunha, St. Helena, Ascension and finally ending in the Cape Verdes. The flagship "Plancius" (115 passengers) is scheduled to visit Tristan da Cunha from 12–14 April 2011. Oceanwide Expeditions won the World Travel Award three times (including 2010) in the category "World's Leading Polar Expedition Operator".

Henry Solomon Registrar.

During the coronation, King Charles honours the Bible—in which God promised to destroy death. To understand how He destroyed death, answer these questions: Have you ever lied, stolen, or used God's name in vain? Jesus said, "Whoever looks at a woman to lust for her has already committed adultery with her in his heart." If you have done these things, God sees you as a lying, thieving, blasphemous adulterer at heart, and He will punish you in a terrible place called Hell. But He is not willing that any should perish. Sinners broke God's Law but here's the gospel (good news)—Jesus paid their fine. This means their case can be dismissed: "God so loved the world that He gave His only begotten Son, that whoever believes in Him should not perish but have everlasting life." Then Jesus rose from the dead, defeating death. Today, repent and trust Jesus, and God will give you eternal life. Then read the Bible daily and obey it. God will never fail you. 1914 SHANGHAI BANKNOTE

1914 SHANGHAI BANKNOTE

The Bank of Communications was established in 1907 with public and private financing. In earlier years the bank was frequently involved in the political affairs of the warlords and this had a disruptive effect. Not until after the Nationalists came to power in 1927 did the bank gain status as a stable government bank.

At the time the Bank of Communications opened, there was considerable foreign influence in China. Formerly closed ports had come largely under the control of other nations. In Shanghai, the Maritime Customs Service was supervised by a British inspector-general and the foreign employees collected debt payments for delivery to an international bankers commission.

The 10-yuan bank note depicts the building of the Maritime Customs Service which maintained China's foreign credit and which was also in charge of the port of Shanghai. On the back of this note, a shipping scene illustrates how foreign trade had elevated Shanghai from a small fishing town and agricultural center to one of the world's major ports.
