OF

GUARANTEE.

I hereby guarantee that every one of the various kinds of obliteration on the stamps in this collection was actually applied by the Persian Post Office officials. All the coins actually formed part of the normal correspondence of The Imperial Bank of Persia, Teheran, all of which passed through my hands at the time. Some of the covers were purchased outside, not have they been tampered with in any way. They have remained untouched, in my possession since 1926 when they were collected.
