Egyptian Expeditionary Force issues overprinted O.P.D.A. and sucharged with new values for fiscal use by the Ottoman Public Debt Administration.

On a telegraph form and together with Court Fee local fiscals on a fragment of a divorce certificate.

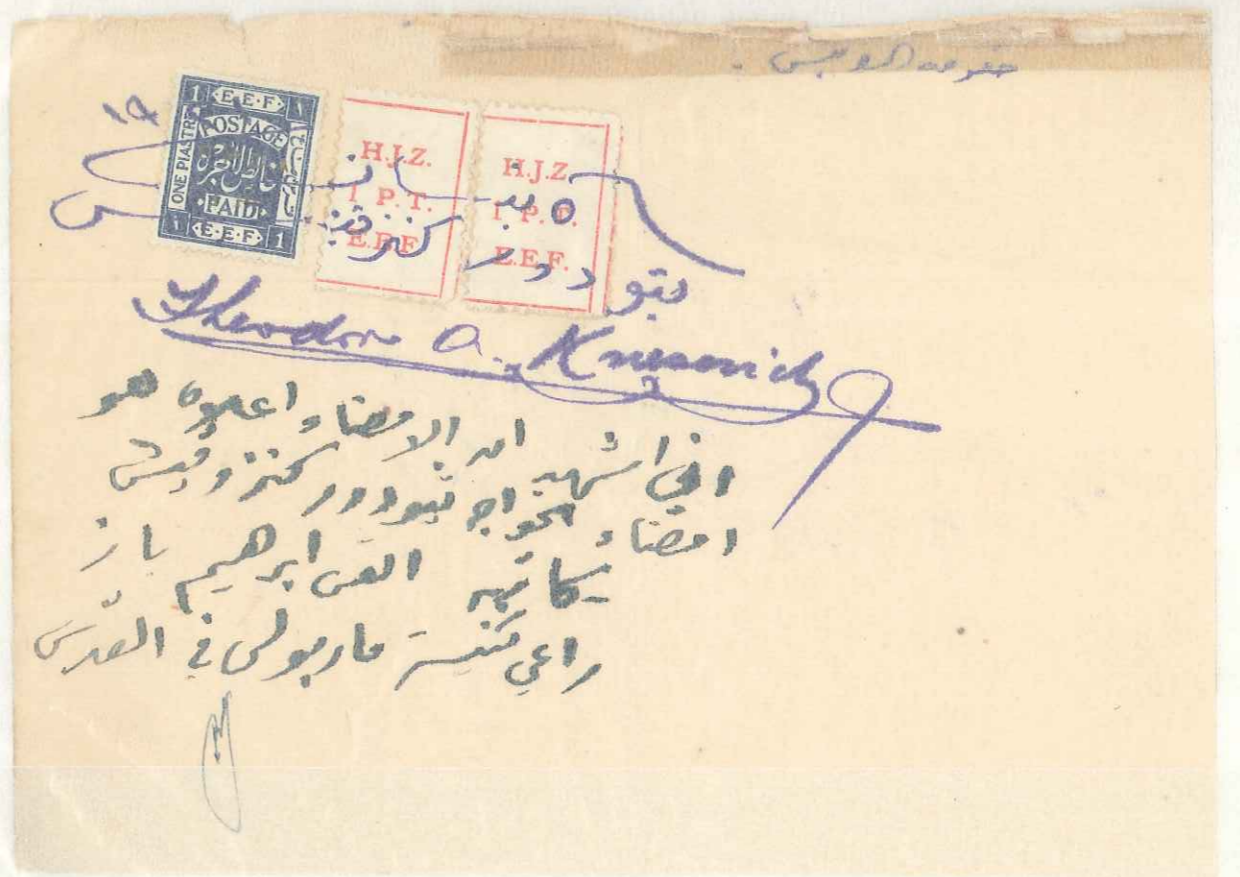

Postal use of the fiscal overprints was tolerated but never formally authorised.

The OPDA fiscals were widely used in their time as one of the few ways of raising income to support government expense before a taxation system could be established.

Large quantities came available to collectors as prior government records were disposed of after independence.

القصر

observations  
 concernant  
 les différents  
 tirages :

1927 = papier semi-transparent  
 1928 = papier verge

pour les valeurs aux anciens  
 couleurs, à savoir,  
 4 m rose  
 7 m rouge  
 8 m jaune brun  
 13 m outremer

les timbres sur papier verge  
 valent un tout petit peu  
 plus que les timbres sur  
 papier semi-transparent,  
 dont la cote est relativement  
 élevée.
