Re: New Patriotas Stamps
BN 19449

Dear Mr. Almeyda:

We send you herewith sketch showing a portrait of Jose de la Luz Caballero in connection with the New Patriotas Stamps. It is felt that this makes a very pleasing design which might be improved by changing the position of the denomination appearing in the upper left hand corner. It could be dropped down to a point where the top of the 3 would be on a level with the top of the hairline of Jose de la Luz Caballero. At the same time, the denomination could be brought in to the right so as to balance the margins of the background on both sides of it.

We would appreciate your comments on the design, particularly in reference to the suggested change stated above. Should you feel that this change is advisable we will either submit a new sketch or make the correction in the engraving as you see fit.

Kind regards.

Yours very truly,

EJG:EP
