I have examined the following stamps from:

SOVIET UNION

1934 Ten Years Without Lenin, 1k,3k, 5k and 10k, each black, blue, gray blue, also 20k blue, red orange and 30k carmine, red orange, each perforated 13 $\frac{3}{4}$, the complete set of six in blocks of four (СТАЛДАРТ Catalogue No.381-386), unused with original gum, never hinged.

In my opinion, these six blocks of four, of which a color scan is attached, are genuine in all philatelic respects. The stamps are free of any faults at time of examination.
