I have examined the following stamp from:

SOVIET UNION

1923 definitives (typographed) 50k brown, imperforate single (Scott's Catalogue No. 276A, СТАНДАРТ-КОЛЕБЛЮА Catalogue No. 26), unused, with full original gum, previously hinged, with a natural inclusion.

In my opinion, this stamp, of which an enlarged color scan is attached, is genuine in all philatelic respects. The stamp is free of any defects at time of examination.

Paul Buchsbayew,
New York, NY

This certificate is invalid without raised seal over the scan.
