

GEOFFREY FLACK TIBETAN STAMPS AND POSTAL HISTORY OPINION

Date: November 15, 2003

Number: 0533

In my opinion the Tibetan cover illustrated on the right (illustration reduced in size) is a genuine internal cover from Gyantse to Shigatse. F.w. 1/6tr Yellow Green (Shiny Enamel printing) tied by GYANTSE Type I (Hel. T3). The cover is manuscript dated "82" in Nepali which corresponds to 1925 (dated internal covers are scarce).
