FIRST DAY COVER  
August 6th 1949

1000 years are paused, since the day, when St. Gebhard, was born in Regenz, the town, where his father, the Earl of Utzo VI, lived. Today, this town is the capital of Vorarlberg, an Union-State of Austria. St. Gebhard's work in political and civil life was of great importance, also his influence in religious respect. He became the Patron of Vorarlberg. This stamp is designed by Prof. J. Seger and engraved by Hubert Woyty, showing St. Gebhard with raised hand for blessing and wearing his mitre.

FIRST DAY COVER  
October 2nd 1950

Josef Madersperger is the inventor of the sewing machine. But the importance of his invention was not realized in his home-country. Nobody helped him get over the difficulties and he could not raise the money to have use for his invention. 50 years later Elias Howe has made a fortune with the sewing machine of his own.
