... to move north and create  
... Caliphate. Medina was, at the time, de  
... besieged Medina, beginning in 1916 and lasting till January 1919.  
The Turks retained a hold up this town until three of four months after the  
when it was handed over to the King of the Hejaz.

The earliest postmark that is found is therefore of a temporary nature. It is a round 25mm in dia.  
intaglio seal which reads 'Medina al Munawwarra' in Arabic and was applied in black ink.  
It was in use from 15th February 1919 to the 23rd March 1919

The Jeddah Provisionals

When King Abd al-Aziz ascended the throne he immediately gave orders that the entire existing stock of postage stamps in government or Jeddah should have some distinguishing mark placed upon each individual stamp, so that circulation of those that had previously fallen into the hands of the Wahabites when they had occupied Mecca.

The portion of sheets collected from Post Offices, and stuck firmly together, gum against gum, to whole sheets, were left in this state, as it was found impossible to separate them without destroying many stamps. In this state the whole sheet was overprinted first, and then the portion stuck on the back, with the result that the overprint appeared on both sides of the part of the whole sheet. In view of their abnormal state, these are amongst interesting items of Jeddah provisionals
