AW 22

On this 1935 mint  
SJ variety the upper  
part of the flagstaff  
is nowhere to be seen;  
not a recognisable constant  
variety, but we have  
met it elsewhere  
before now, so it's  
best described as  
fickle - or  
inconstant £20

£24

AWC3 (to follow C2)

1935 SS, a fine mint  
set: the variety you'll  
see on the 1/- value is not  
short extra flagstaff  
(this is the wrong pointer)  
and we'd describe it as  
a catherine dish, did we  
not know we would be  
flying a kite! E/30

[I suggest enlarged  
illustration]
