War Effort - 'Bantam Series' 1942-45.

The 1/2d to 1/- larger designs were reduced in size to save paper. As the 11 row perforator combs could not be altered, the stamps had to be produced in 2 sizes only. So that in the one case a pair, in the other a row of 3 or 6 triplasts, was perforated round its sides & the remaining separation done by rouletting. Initially a pair of discs was used, resulting in "Double" roulettes of 1/3. Later a single roulette was used at 6 1/2.

Slogans were printed on the 4 sheet margins. From 1945 onward those in the side margins were replaced by double parallel lines and figures '240' or '360' according to the number of stamps per sheet.

Early slogans were in same colour as stamps. Later they were in purple.

1/2d Iss 1 to 4.
360 stamps per sheet. 20 x 18.

Monocoloured stamps

The printing of the single colour stamps was begun in 1943 and lasted until 1954. The stamps were only used as coil stamps. They were printed in sheets of 240 subjects and made up in rolls. Three printings were made, the first printing, the stamp size was 18 - 22mm, the last two printings the size was increased to 18½ - 22½. It looks as if two screens were used as some of the stamps seem coarser than others, but the same screen was used 150 lines to the inch for all three printings, the difference being the dept of etching of the cilinder. As in the bicoloured stamps, the single coloured have as many or more little flaws.

Set 1 - 1914-22

84,000R

3,100R

This de la Rue type set was gradually issued as the Transvaal stocks ran out.
P14, W/M Buck's head.
The frame has no varieties. The most noted varieties are inverted W/M on 1d, 2d & 3d; a double of the black 1d, and inverted 'p' for 'd'. Minor are raised 'd's, defective 'd's and damaged figures of value.

South African Dues
Set 2 - 1922

250

This group had only 3 values. Printed Litho in Pretoria, rouletted, no W/M.
The stamps are otherwise very similar to Set 1.
Production was poor, with many transient varieties. There were, however, two noticeable minor constant frame varieties in each of the three panes of the setting.

Set 3 - 1922-6

1, 2 87

Set 3 was redrawn, with the country name now type II, much squarer letters than before.
Litho as Set 2, but perforated. No W/M.
Found on both white and toned paper, which is about twice as valuable.
Four different frame plates were used, each of which shows 1-3 minor flaws.

Set 4 - 1927-28

2,638
+ 1,000

This set drops the Unionof/Unie van from the names. No W/M. The frame is typo for 120 stamps. The values were printed from 6 wide stereotypes assembled in various ways to make a unit of 60. There were a number of small frame flaws, the most noted being a stop after 'DUE' on stamp 2 in the left pane.

Set 9 - 1950-58

221

This set is the only hyphenated non-decimal issue. Roto and Buck W/M. This is a complicated set, as there were 2 issues of the 1d, 4 of the 2d and 2 of the 6d. All used the same frame cylinder #33, except for the last issues of the above in 1959 and 1960 which used cyl #92. They can all be distinguished by colour and screening and sometimes by minor frame flaws. (Numbering by handbook)

Louis Oosthuis
Antique

South African Dues
Set 10 - 1961

1,471

This is the last Union set and is in the new currency. Also the new 'Arms' watermark.
A very good production with only three minor frame flaws and one value flaw per value.
