APRESENTAÇÃO DA COLEÇÃO DE CARIMBOS MUDOS E GRAFADOS

Conforme é aceitação geral não existiu , existe ou existirá, na filatelia brasileira campo mais amplo, variado, apaixonante e interessante, que o dos carimbos sobre selos postais.

,O chamado período pré-filatélico, de 1798 até 26.1.1841 não é o mais interessante, nem tampouco o mais rico, porém o de 29.11.1842 com o Decreto 296, instituindo o selo adesivo e especialmente o Decreto 3443, de 12.4.1865, autorizando a fabricação e emprego de Carimbos Mudos, com os obliteradores, e os já usados de Legenda Simples, que identificavam as Agências de Origem.

Pode-se dizer que houve uma explosão das enormes concepções de formas, tamanhos, cores, artes e excentricidades.

Os materiais utilizados para confeccioná-los foram madeira, cortiça, borracha e metais. Com o uso e o tempo os mais fracos sofreram desgastes e quebras, originando-se pequenas ou grandes diferenças, principalmente nas formas estelares ou rosáceas. As Agências de Origem tornaram-se não identificáveis até agora.

Vários filatelistas estrangeiros e nacionais dedicaram ou dedicam precioso tempo em organizar catálogos de carimbos. Entre muitos citamos Paulo Aires e J. B. Souza Botelho, cuja numeração seguiremos, colocando-as debaixo dos selos. Paulo Ayres P.A seguido de números e S.B. Souza Botelho idem, quando for o caso.

O catálogo de Paulo Ayres classifica os carimbos em: mudos, grafados e mixtos.

Apresentaremos apenas os dois primeiros tipos,

MUDOS: formas geométricas regulares, fantasias de formas regulares e irregulares.

GRAFADOS: legendas simples, com e sem cercadura, sem data; circulares simples tipo primitivo com data; algarismos, números e letras.

COLEÇÃO DE CARIMBOS MUDOS

ROTEIRO

Resumidamente apresentamos um roteiro das folhas, lembrando que as numerações abaixo dos selos referem-se ao Catálogo Geral de Carimbos de Paulo Aires (PA) ou Souza Botelho (SB) dos catálogos de carimbos mudos.

MUDOS

Folha 1 – Roteiro e carimbos de Formas Geométricas Regulares
Folha 2 – Formas Geométricas Regulares - Circulares Raiados
Folha 3 – Formas Geométricas Regulares - Circulares Raiados
Folha 4 – Formas Geométricas Regulares - Circulares Raiados
Folha 5 – Formas Geométricas Regulares - Circulares em Barras
Folha 6 – Formas Geométricas Regulares - Barras Interrompidas
Folha 7 – Formas Geométricas Regulares - Pontos Irregulares
Folha 8 – Formas Geométricas Regulares - Regulares em Pontos
Folha 9 – Formas Geométricas Regulares - Regulares em Pontos
Folha 10 – Formas Geométricas Regulares - Fantasia Formas Regulares
Folha 11 – Formas Geométricas Regulares - Fantasias Circulares
Folha 12 – Formas Geométricas Regulares - Circulares em Barras
Folha 13, 14, 15 e 16 - Fantasias

GRAFADOS

Folhas 17 a 39 – Legendas simples, com e sem cercadura, sem data.
Folha 40 – Circulares. Tipo primitivo com data.
Folhas 41 a 43 – Algarismos e números.
Folhas 44 a 48 – Letras.

Nota papa o Bopp

A respeito do carimbo P A nº 796 -âncora- o Figueirédo Fº informou o seguinte:

1.- O carimbo não é de Manaus, como indica P A.

2.- O exemplar da coleção do Paulo é um sêlo de 10 réis da emissão de 1866 e franqueara um jornal de ITAQUATIARA ouITAÇOATIARA, enviado à Prefeitura do Rio.

3.- O sêlo foi cortado do jornal por Luiz Câncio, que era lançador e encontrou o jornal no arquivo da Prefeitura. O sr Câncio vive no Rio e é parente afim do Figueiredo.

4.- O carimbo em questão figurou primeiro na coleção dum De Court, do qual ele foi comprado por Wiliam Lee para Paulo Ayres. O Paulo passou-o para o Niso Vianna. Atualmente o carimbo deve estar na coleção Koester.

26 de agôsto de 1963.
