"T.P.O. UP" Salisbury to Bulawayo

From 1st March 1912 a mail sorting carriage or "Travelling Post Office" was attached to trains between Salisbury and Bulawayo, carrying the European mails, to expedite handling the overseas mail and to deal with mail matter for places enroute. On 27th September 1914 the entire service was suspended owing to the irregular sailing, due to World War I, of the ocean mail steamers from Cape Town.

Use of Double Circle "T.P.O. UP" canceller resumed use from 8.1.1919 to 21.6.1921 (and possibly later) at Bulawayo Station (unofficial).
