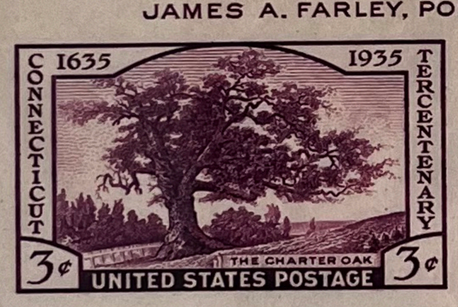
JAMES A. FARLEY, POSTMASTER GENERAL

PRINTED BY THE TREASURY DEPARTMENT, BUREAU OF ENGRAVING AND PRINTING



IN COMPLIMENT TO THE THIRD INTERNATIONAL PHILATELIC EXHIBITION OF 1936

NEW YORK, N.Y., MAY 9-17, 1936
PLATE NUMBER 21557

Right margin gummed on face

Double paper (spliced)

missing perforations

BUREAU "ROLL-TO-ROLL" SPLICES

The double paper denotes a roll-to-roll splice. Note that printing occured after splicing, as evidenced by the cellophane tape having shrunk and discolored over time, dropping the design below normal size. The Bureau endeavored to identify and destroy these splices which were, from their perspective, waste.

Dear D.B. 1 September 44

Thanks for the chuckles. They made the rounds here very satisfactorily. Sorry the garden was not all you hoped. It was so cold here last night it would have frosted had it been calm. But the wind blew a young gale. Yes I have the Overrun nations OK. 60¢ a block for names is too much. No I do not know Lloyd Bowles - but there are lots of prominent ones I don't know so that means not a thing. I saved my dupes for the kids in the Children's Orthopoedic Hospital in Seattle. But it should be a godsend for anyone bedfast - to become interested in stamps. So Gale is going to host to WACs. Well I was there in the last war. Hope they feed the gals better than we were fed. Best of luck & Cheerio D Crotchley

5¢ Netherlands reverse printing certified genuine 'in all respects'

This mint, never-hinged registration block of six United States 5¢ Netherlands stamps from the Overrun Countries set of 1943-44 is an unusual printing variety: the red and blue stripes of the flag are printed over the black shading dots of the flag. Jim Lays of Colorado began closely examining the Overrun Countries stamps in his collection, following the publication in *Linn's* in November 2004 and July 2005 of discoveries of so-called reverse printings of the 5¢ Yugoslavia, 5¢ Poland and 5¢ France stamps. The illustrated block, which Lays owns, received a certificate of authenticity from the American Philatelic Expertizing Service in mid-April, stating that the block is a "reverse printing of the flag colors, red and blue over black" and is "genuine in all respects." News of Lays' discovery comes to *Linn's* courtesy of Ron Mitchell of Colorado. Mitchell is president of the Rocky Mountain Philatelic Library in Denver. A reverse printing of the 5¢ Yugoslavia stamp, blue and red over black, was first listed in the 2002 Scott *Specialized Catalogue of United States Stamps and Covers*. The 2006 Scott U.S. specialized catalog, to be published in October, is to list reverse-printing varieties of four additional Overrun Countries stamps: 5¢ Czechoslovakia, 5¢ France, 5¢ Luxembourg and 5¢ Poland. Discovery of the 5¢ Netherlands reverse printing discussed here came too late for inclusion in the 2006 Scott U.S. specialized catalog.

printing variety

of the flag. The black lines and shading are clearly visible in both the blue and dark rose bands.

In the reverse printing variety, the black ink was applied first, and the blue and dark rose inks were applied over the black ink. The black lines and shading are clearly visible in the central white band of the flag, but they are difficult to distinguish in the blue and dark rose bands of the flag.

Reverse-printings of Overrun Countries stamps likely occurred during the early stages of printing. The errors are known on first-day covers.

The 1943-44 Overrun Countries stamps were printed for the U.S. Post Office Department by the American Bank Note Co., which had a contract for them. The p

POSTAGE CURRENCY

With the start of the Civil War in 1861, cash was hoarded. U. S. Treasurer Francis E. Spinner affixed postage stamps, singly and in multiples, to Treasury paper as a substitute for small currency, arranging with the Post Office to replace worn stamps.

The next step was to print the stamps on the paper, which Congress authorized on July 17, 1862. This "Postage Currency" remained in use until May 27, 1863
