Liverpool

5 MARCH '23

In later printings of the ½d value with the Setting 1 plate, the variety **Line** over **Saorstát** occurs in a second position, R17/3. Also in this Setting, in position R19/4, there was a very thin accent over the a of Saorstát.

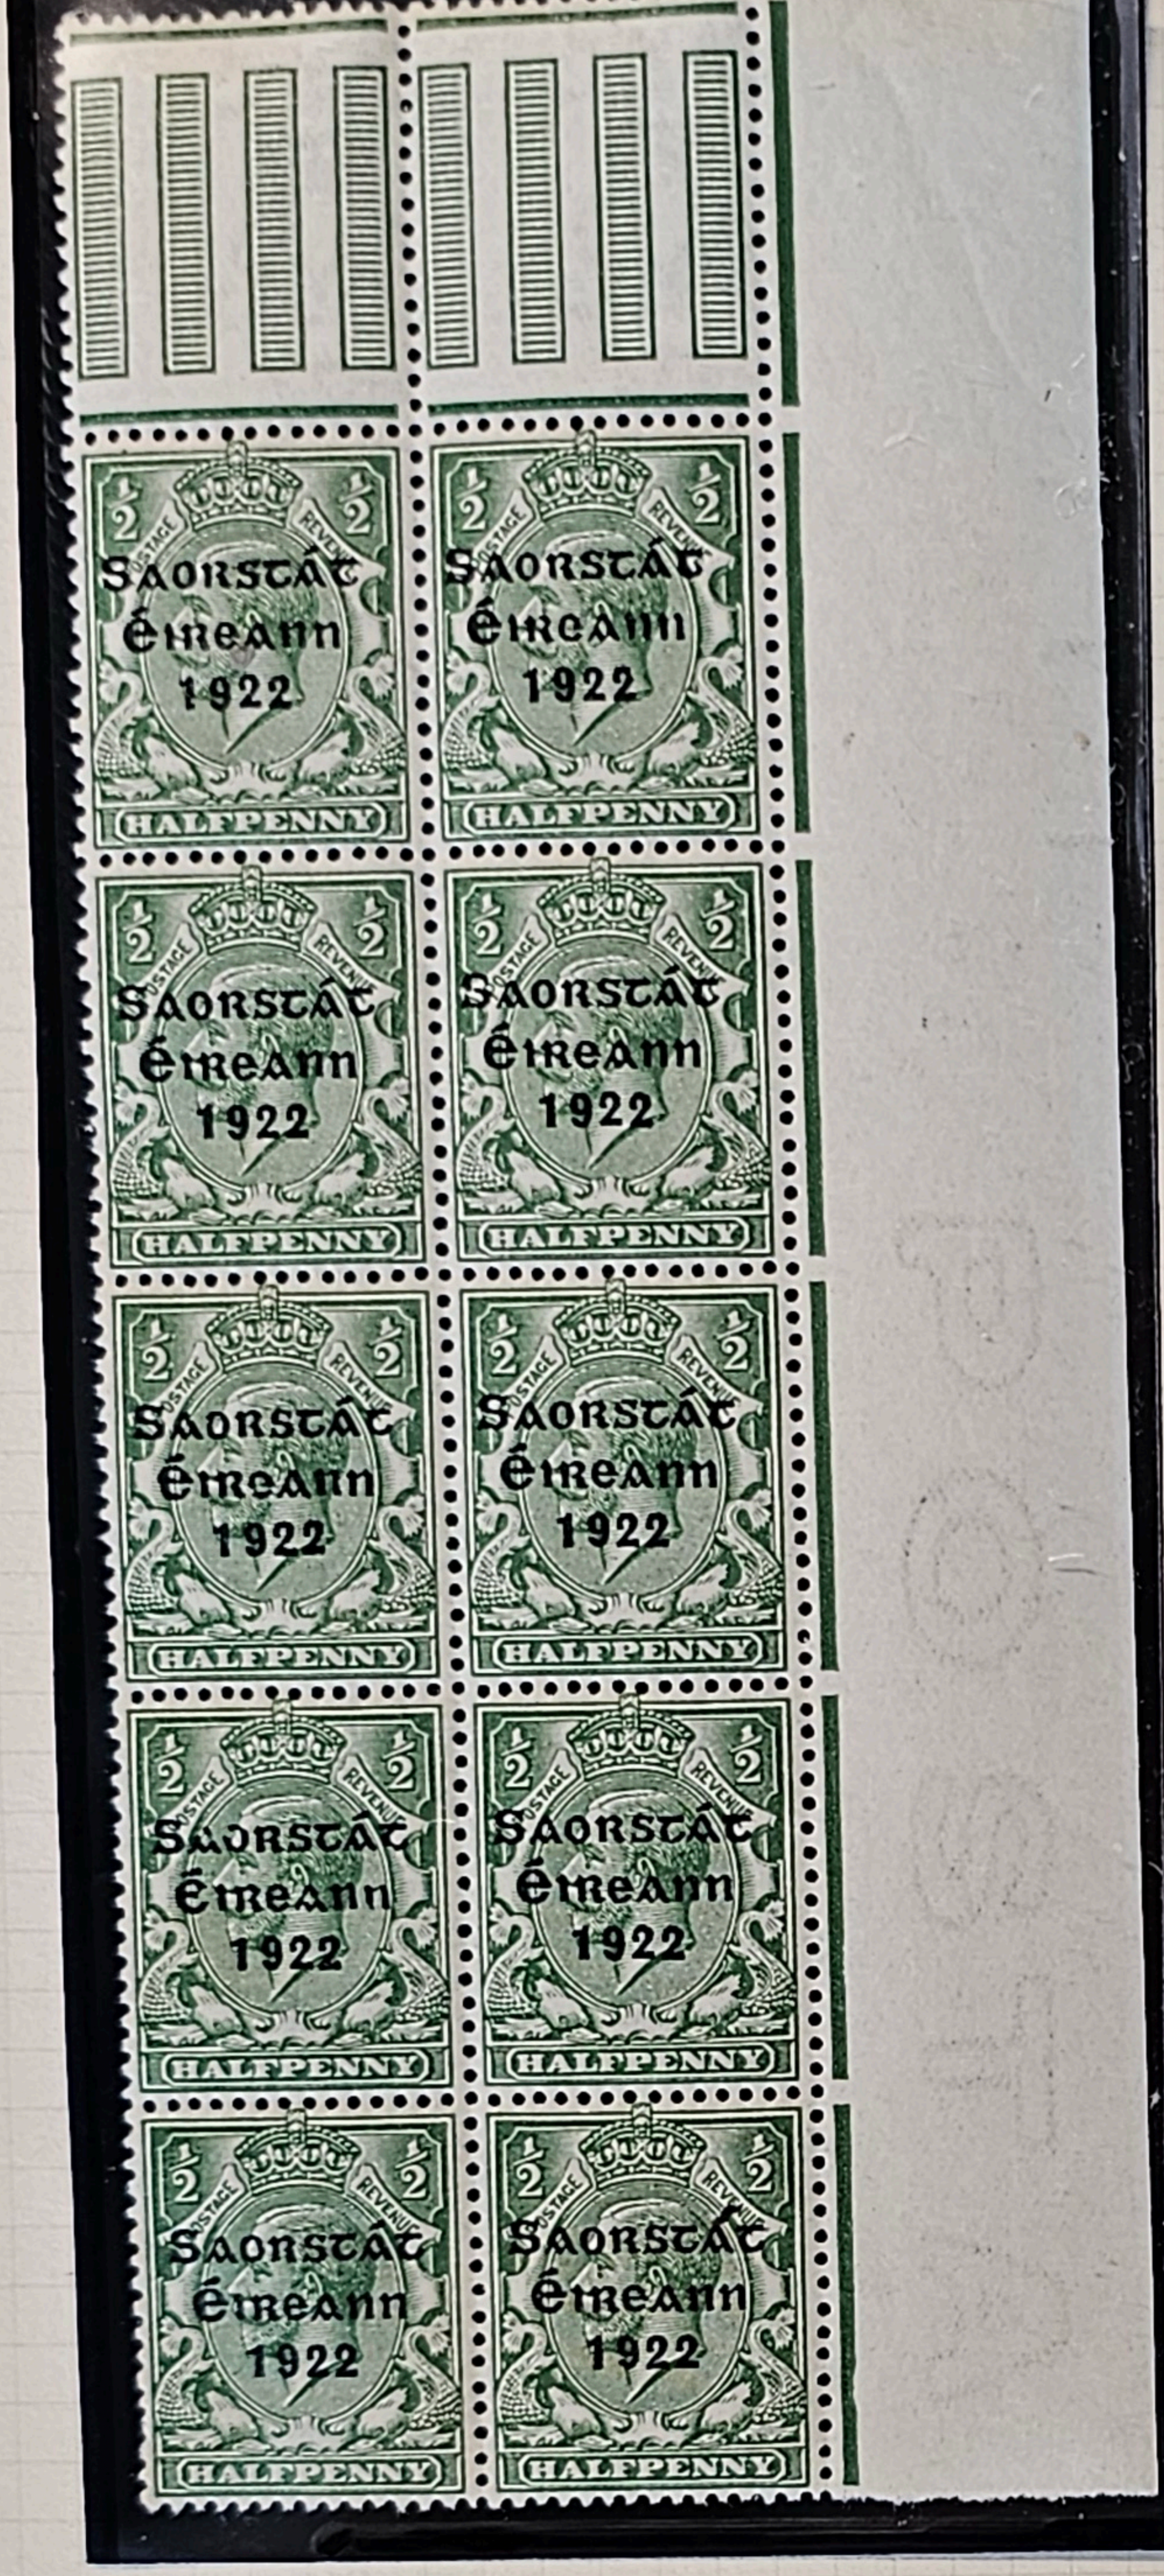
£60

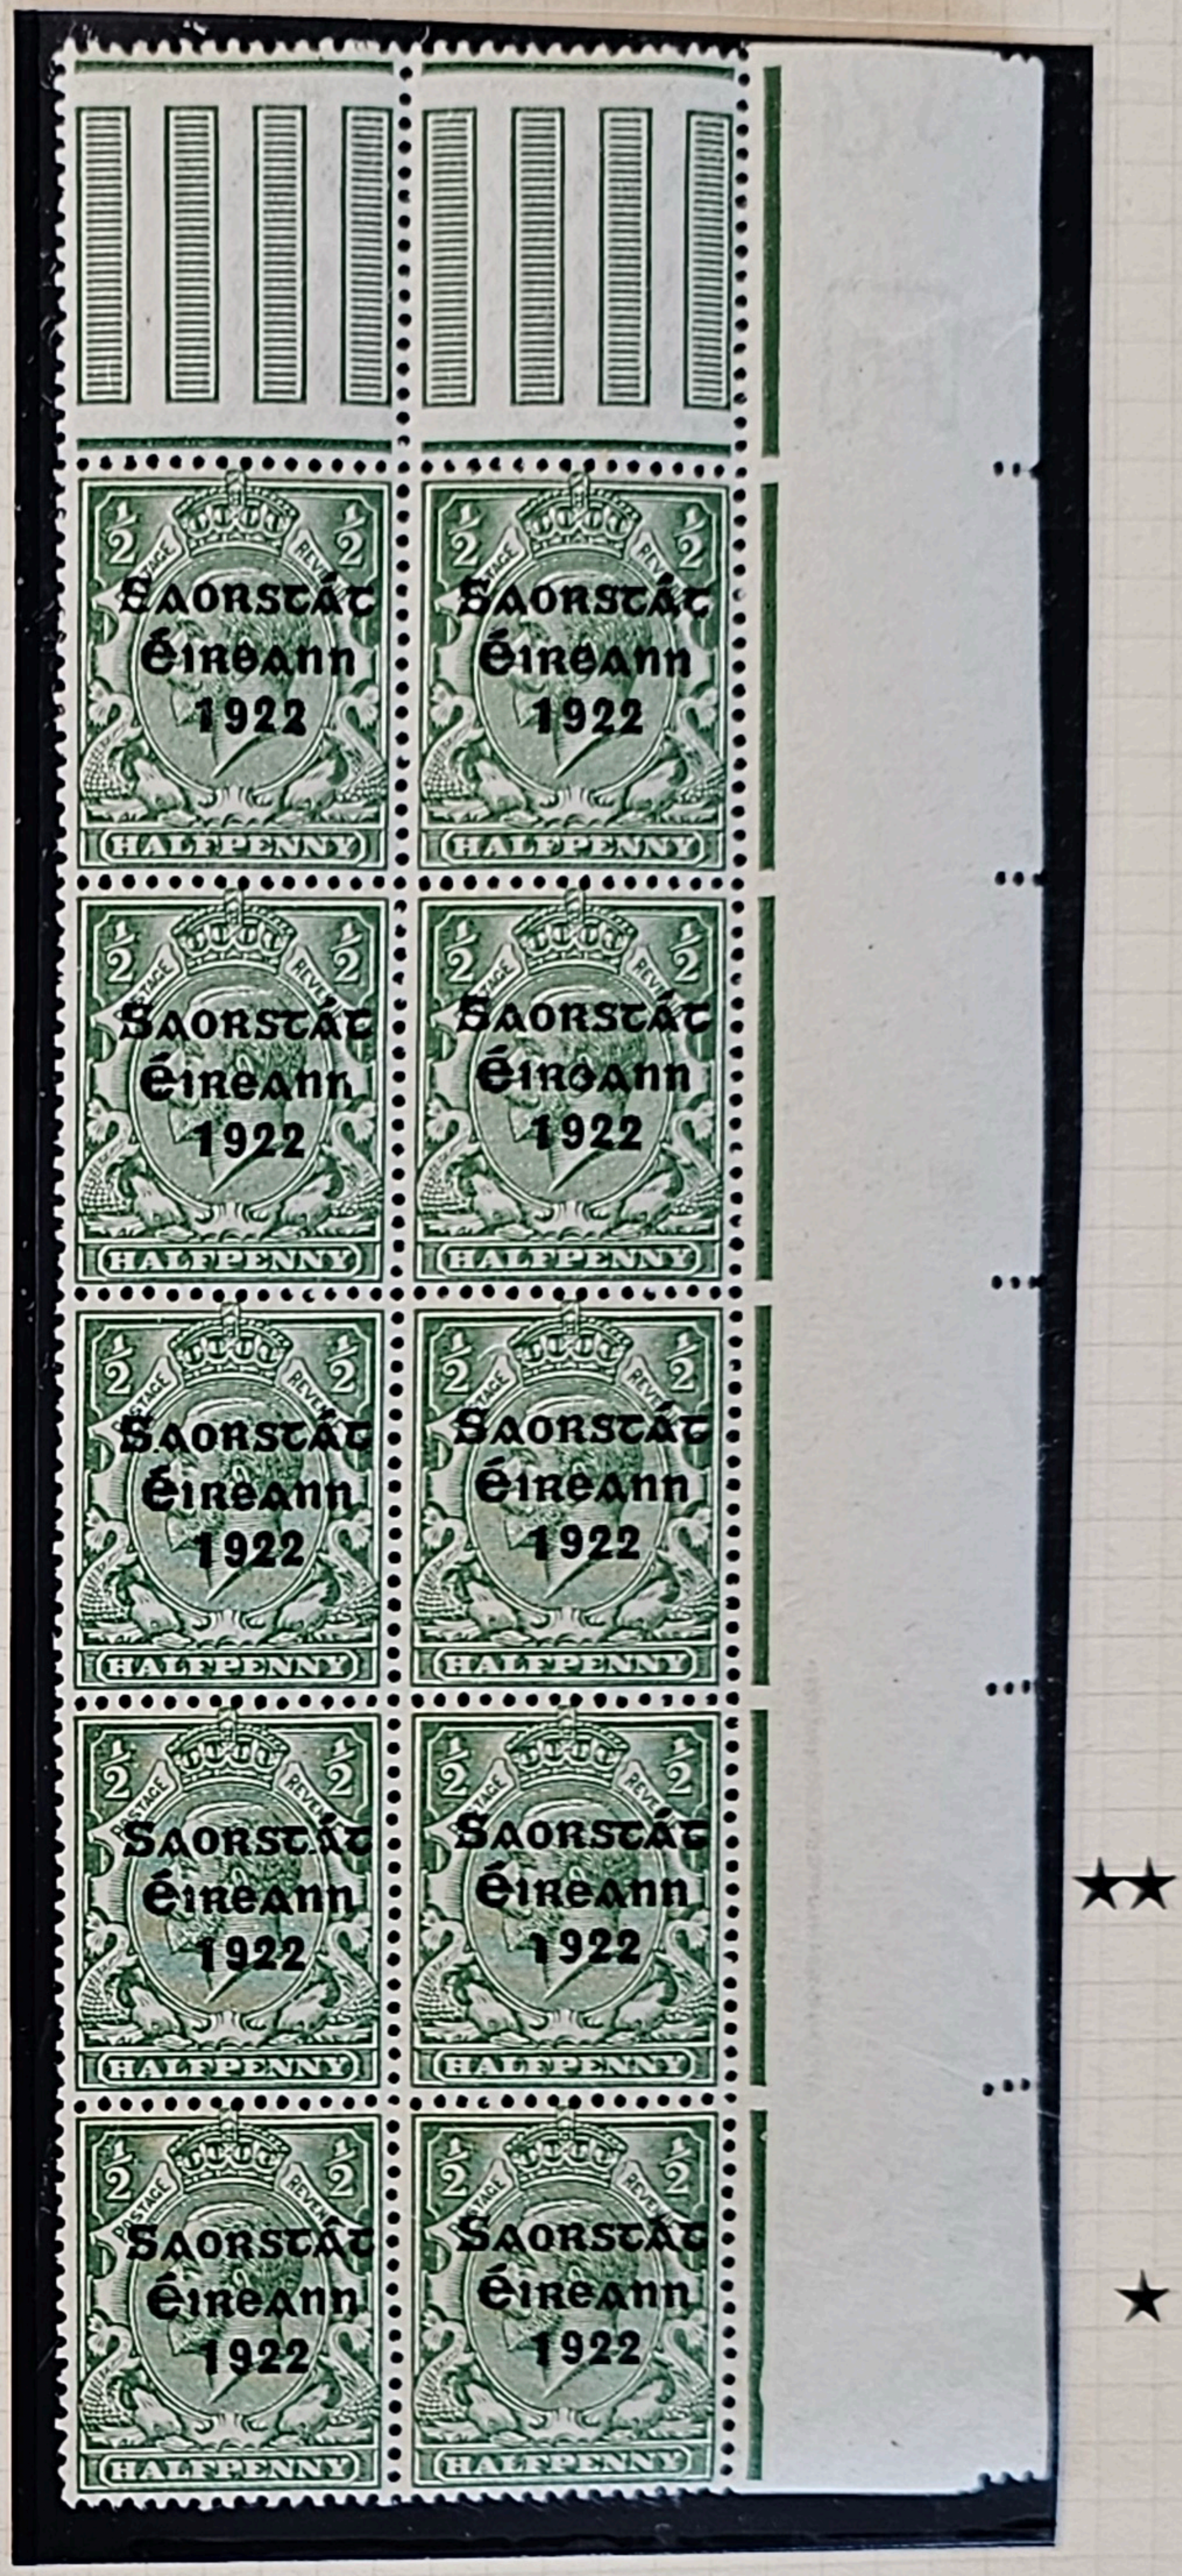
Line Over Saorstát R17/3 and Thin Accent R19/4 Setting 1

Thom Saorstát Overprint

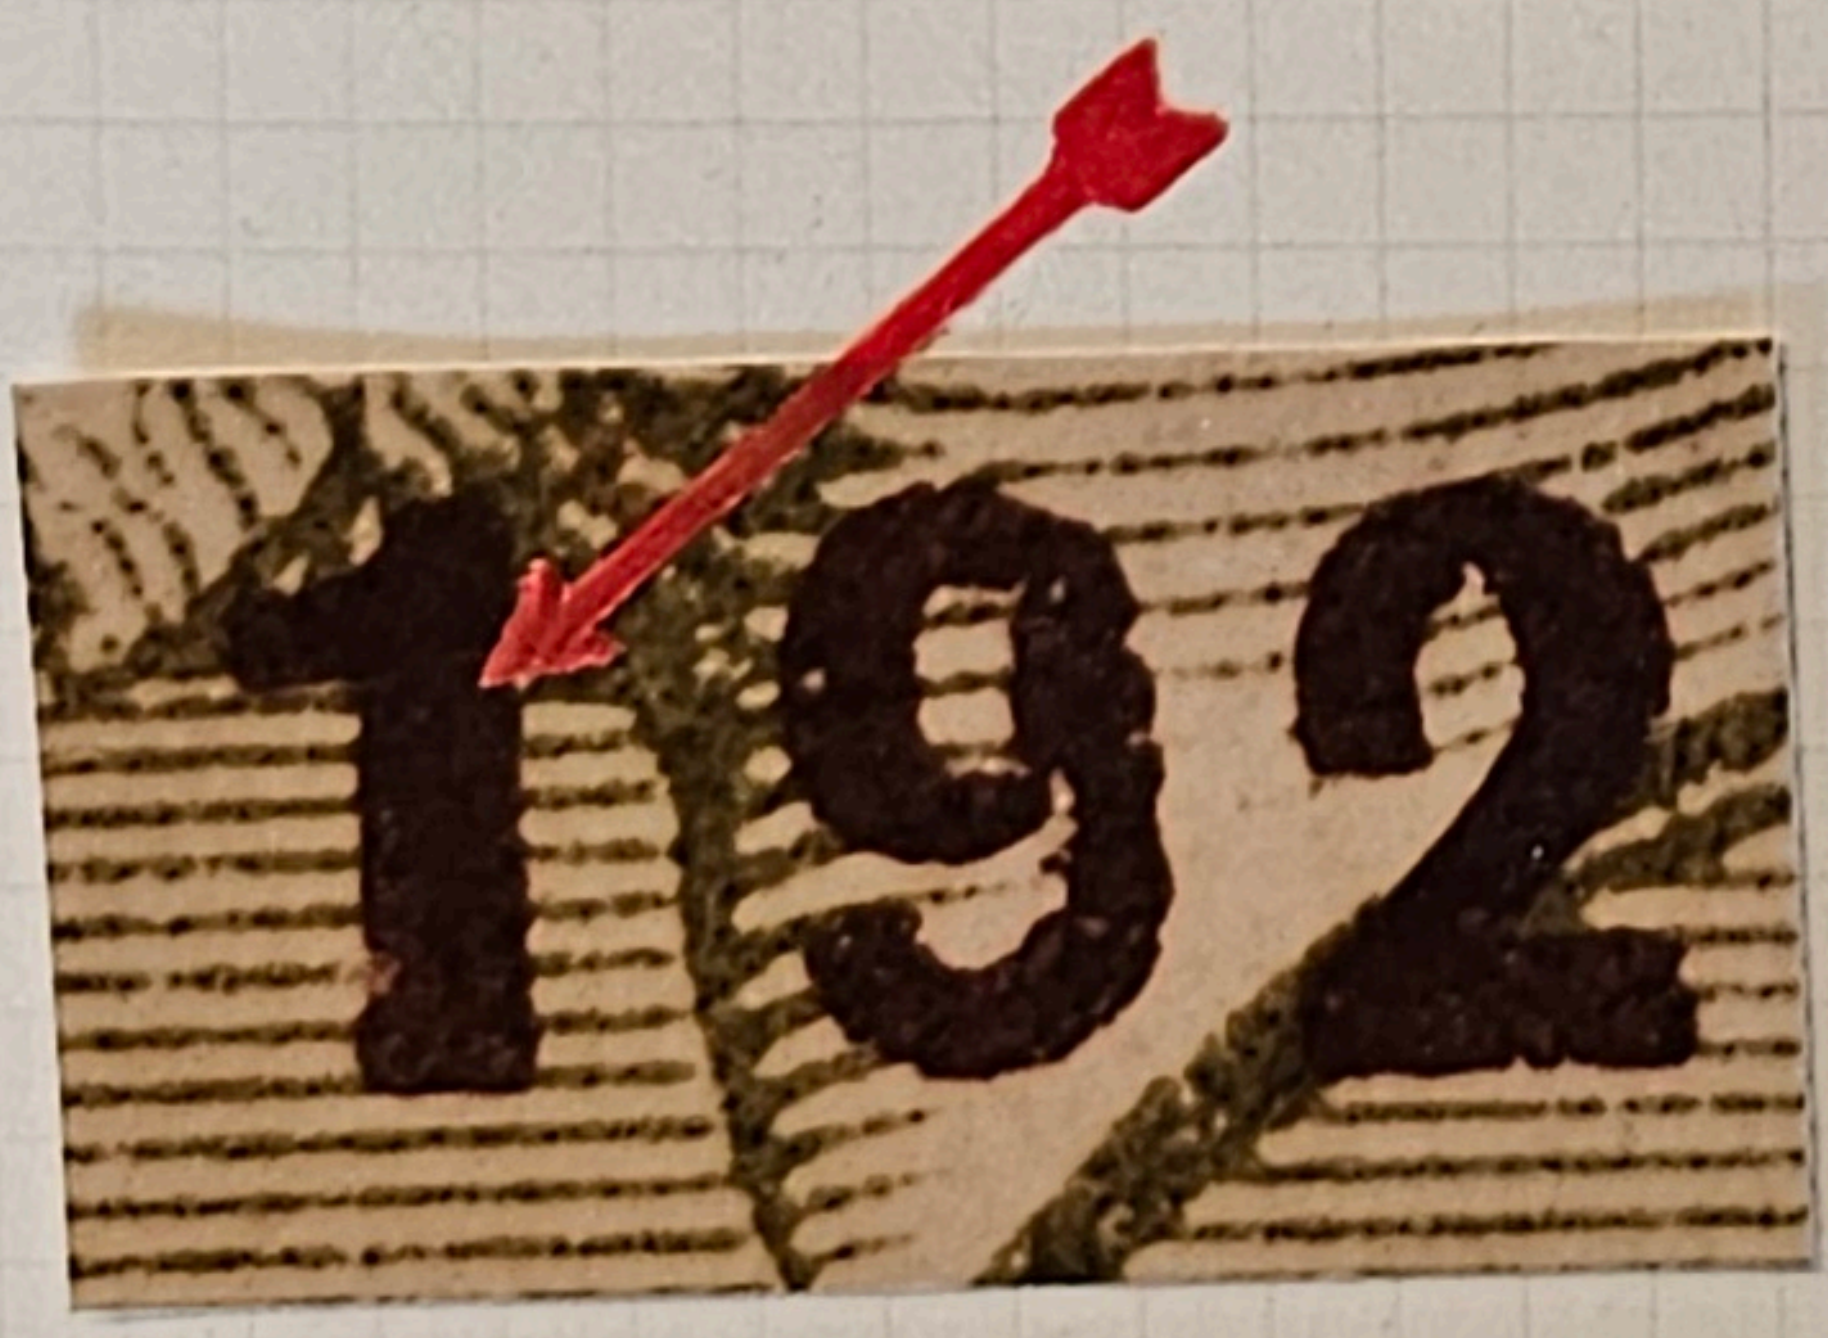
The ½d value was unique in the series in that the **Semaphore 1** in **1922** in position R14/12 appears on some inserted accent sheets but not on others. From this, and other associated characteristics, it is evident that there were two separate and distinct printings of this value with Setting 1, one early, the other quite late..



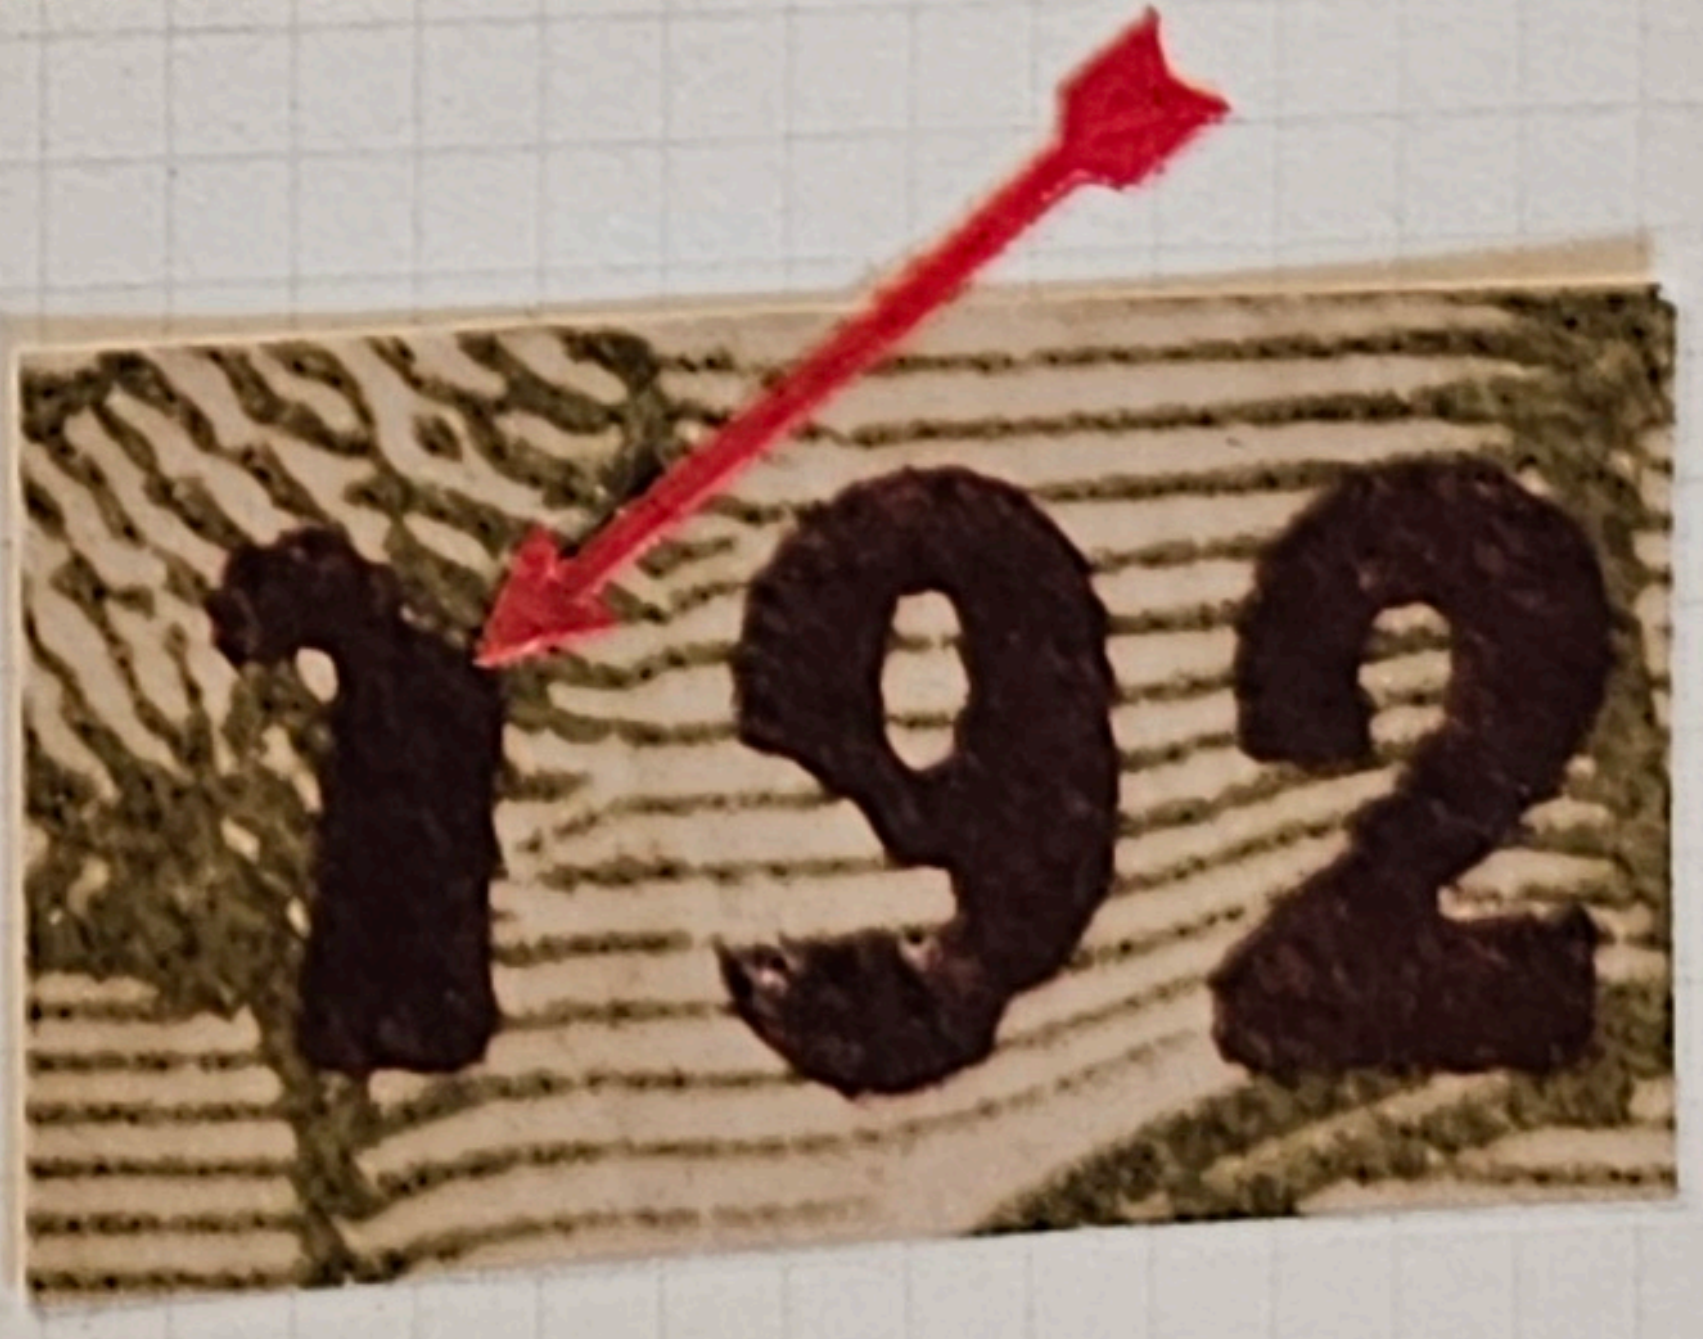
Inserted Accent



★★ R14/12 No Semaphore 1



★★ R14/12 Semaphore 1



½d Inserted Accent R15/12: Without and With Semaphore 1 in 1922 R14/12

Setting 1

Thom Saorstát Overprint

£220

The thin accent in position R19/4 gradually eroded with further printings and although it never disappeared completely, it eventually appeared as a dot. Unlike the more illustrious Setting 1 missing accent in R15/12, the dot was the result of an attempt to repair the cliché within the setting and not by insertion on the stamps after printing. It occurs on most of the values of the series (½d, 1d, 2½d, 6d, 10d and 1/-).
