ERRATA and ADDENDA.

✓ Page 159. "PATIALA."

The errors shown in Fig. 20 ought really to be included in the section headed "Printers' Waste." They were never issued or intended to be issued, but are the product of a printing of proofs made in 1894. One sheet of each value received the Service imprint upside-down, and these further included one or two minor errors. Most of those printed were destroyed, but a portion unfortunately got out. These have no value except as curiosities. Nos. 129-131 in the Reference List, page 175, should be therefore omitted.

✓ Page 27. After No. 124 add:—

124a, 6 annas, bistre ("Chamba State" double.)
