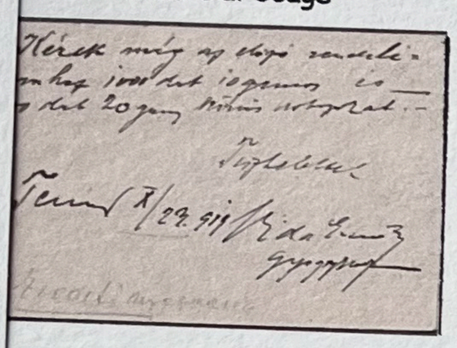
01/07/919 RATE

30 Filler Card Rate

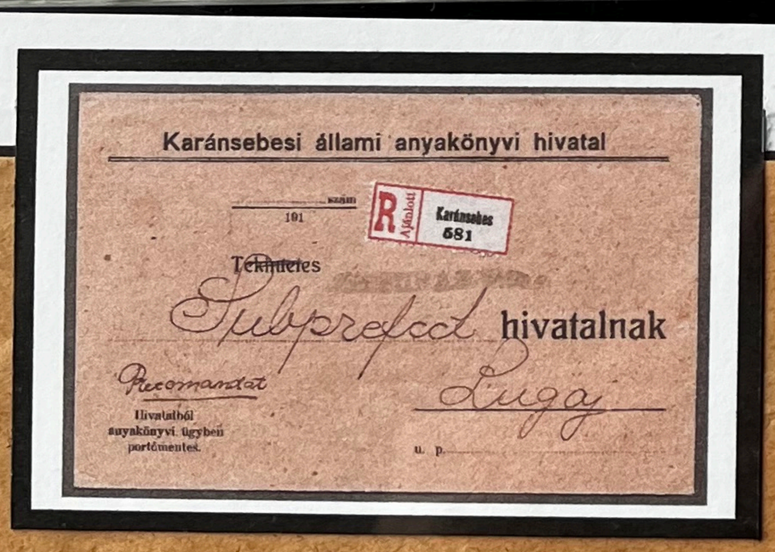
On 1st July 1919 the Timișoara Postal Directorate, under Serbian occupation, introduced, independently, a series of increased postal rates for The Banat. An old Hungarian 10 Filler pre-paid card with Hungarian crest manually obliterated, plus 2 x 10 Filler overprints combine to make up the correct 30-Filler rate. Sent, using old Hungarian style TEMESVAR 919OKT23 cancel, to Arad with **Romanian Timișoara Censor** mark.

Back of Card
Commercial Usage



Transitional period under the new Romanian Administration

Old Hungarian official envelope sent from KARÁNSEBES 30DEC919
Received LUGOS 1JAN919 and censor marked **CENSURAT Lugoj**.
Both the old Hungarian Karánsebes and Lugos cancellers have been modified to the new Romanian format of dd/mm/yyy.
Franked with 2 x 45 Filler 1st Timișoara Overprint issue stamps.



1ST TEMESVÁR OVERPRINT ISSUE – ECCENTRICITIES OF TYPE

10/2 Fillér Positions IV.1 – V.5
With no right spar to "f" at position V.5

Most of the 7 different characters were printed by sorts originating from more than one matrix mould. The compositor appears to have insufficient "1"s and "0"s to enable him to use the same font for all 100 surcharges. Hence 3 distinct combinations exist:

Typical **3.2mm font** *Sans-serif* 10

Typical **2.8mm font** *With serifs* 10

Typical **2.6mm & 3.2mm** *With serifs* 10

Additionally, some damaged or deformed sorts were used. The most noticeable being:

No left serif *Position V.6* 1

No right serif *Position X.10* 1

When the 45 Fillér printing base was being set, all 100 "Fillér" sorts appear to have remained in-situ. Only the numbers "1" & "0" were changed. This is validated by the constant position of eccentricities, including the "closed é" & "no right spar f" at positions II.8 & V.5:

é f 4 4 4 4

Closed é *Position II.8*

No right spar *Position V.5*

With Serifs *Used in 96 positions*

No oblique *constant in 3 positions*

Missing right serif *Position III.1*

Sans-Serif *Used in 4 positions*

The "4" & "5" type is more uniform than the "1" & "0". Nevertheless two different fonts were used for printing the "4". The oblique of many with serif "4" sorts is very weak, even appearing to be missing constantly in 3 positions and irregularly in several others.

45/10+2 Fillér Positions IV.1 –V.5
With no right spar to "f" at position V.5

2nd TIMIȘOARA OVERPRINT ISSUE

Issued on 1st July 1919

The Hungarian Postal Authority in Budapest had ceased supplying the area with postage stamps at the end of March 1919. Now acting in isolation, the Timișoara Postal Directorate increased postal rates for the area under its jurisdiction.

To supply sufficient stamps for the rate increases, lithographic overprints were produced at the Csendes Testvérek printing works.

4th TIMIȘOARA OVERPRINT ISSUE

Issued on 17th August 1919

Although the Serbian occupation had ended on 27th July, Romanian administration was not installed in Timișoara until 20th August 1919. Knowing the new Romanian postal authorities would not permit further local issues the Timișoara Postal Directorate acted pre-emptively. The 4th issue, containing 13 different overprints, went on sale on the 17th. No real postal necessity could be claimed for this issue. Although the 3rd issue had sold out, large stocks of the 2nd issue still remained unused.

The lithographic overprints were carried out at the Csendes Testvérek print works.

Carta Postală

Dragile mele,
Ați știut cât plăcut îmi
va fi în grea ceasuri din Lugoș. Cauza
a fost inima. De altcum mă
simt până în prezent bine, cu
Helena mă mângâiește ...
nu prește mult ne vom întâlni
Ce mai aveți de nou prin Lugoș?
Focul mănânce pocinții lor
și pe voi vă pup de mii de ori
Octavian,
