NEW SOUTH WALES

Type 1. Type 2.

The State punctures were also many and varied:

Type 1 - O = 8, S = 10, N = 11, = 10, W = 13 holes. Height = 13mm.
Period of use: Nov. 1902 - Jan. 1903 and after Jan. 1913 on Australian issues.

2 - O =8, S = 8, N = 10, S = 8, W = 11 holes, Height = 14mm.
Period of use: Feb. 1903 - end of 1912, and later on postal stationery issued by the Commonwealth.

N.S.W. state punctures are:

W = Government Savings Branch (like a bank).
Period of use: Jan. 1907 - mid March 1907.
= Period of use: 14.MR.07 - end 1912.
= Government Railways.
Period of use: small holes - 1895 - 1902.
large holes - 1902 - 1909.
= Public Works.
Period of use: 1895 - 1910.

Type 1. Type 2. GSB NSW GSB

GR. Small holes. GR. Large holes. P.W

1 OS coincides exactly with the OS on the Type 1 OS/NSW. Similarly 2. It is likely that the pins forming the NSW were removed while puncamps for use by Commonwealth Government Departments based in NSW.

Official Punctures used in New South Wales.
