Nizam's Gov't.

In 1880 the first issue plate was placed back in production and the stamp was reissued. There were two major changes in the stamps on this page, the first was that the stamp was perforated 12½ rather than 11½ and the second was the printing of the stamp in a number of fancy colors. Like the reissued stamps in yellow olive green the stamps on this page were accepted for postage but rarely used as the smaller purple-brown to black third issue one anna Post Stamp of 1871 was readily available.
