← 55 cts

Invert not listed

The reprint of these stamps looks good enough to be genuine. But it's not. The killer is 5 bar as used on the N.G. cover above. Could have slipped thru the mail. The new print similar to the one used on C25 is well done and could be O.K. as the 55 cts error appeared on the Scott C35 (San 42). This may have been a preliminary printing for the 1930 airs, but either the stock of them was inadequate or the format too large. The decree doesn't call for this surcharge in the 1927-50¢ basic "official"

All above stamps are N.G

Scott 46 C37 on cover. Rare
