Dragă amico,

Noi poate mai stam vreo zece zile. Astăzi pe aici a plouat tot post în excursie la Horez și la Bistrița. Am plecat dela Govora la 11 și am ajuns 4½. Am mâncat pe iarbă verde. Duminică 16 august am fost la oenele mari. Am vizitat mănăstirea și bazarul. Am cumpărat dela bazar lingurite de ouă.

The United Provinces of Moldavia and Wallachia

Prince Carol - Classical Effigy

In 1872 a new design replaced the bearded effigy of Prince Carol. These stamps were designed and printed by A. Hulot in Paris. The design was in the classical French Second Empire style echoing the designs used for the French Napoleon III 'Laureated issue'. The arrival and issue of the stamps was delayed by the Franco-Prussian War of 1871/2.

In 1876 French production was replaced by printing in Bucharest. The 1 1/2b, 5b, 10b (A), and 15b were printed using plates made in France. New plates were made in Bucharest for the 10b (B) and 30b. The perforation of these stamps was 11.

On 1 April 1879 a third issue of this design comprised changed colours and some new values. The typography was undertaken in Bucharest with some plates made in Paris (3b, 15b (C), 25b, 50b), and some made in Bucharest (1 1/2b, 10b, 15b (D). The perforation was 11 or 11 1/2.

Prince Carol

Shortages of some stamp values was a continuing problem at this time. These shortages resulted from printing production difficulties, the dependence upon communications with France for some plates of the Hulot issues, and the rural nature and difficult road in some parts of the country. As a result it is not uncommon to find bisected stamps used to pay the correct postage. This is example is of a bisected 3 Bani Emerald attached to a newspaper in order to pay the correct rate of 1 1/2 bani for the sending of printed matter.

In July 1880 a new issue was released with a new effigy, modified from the effigy used in the 1871 issue. It is reported that the Prince chose this new effigy as he felt the Hulot design made him look older, and to some people as if he was deceased.
