Rekonstruierte Reihe (Marken 1-5) der 1/4 anna schwarz

Two 'issues' of forged State postage stamps appeared in Srinagar between 1887 and 1891. These were sold by stamp vendors exclusively to visitors to minimise the risk of detection at the Indian post office in the town. The first forgeries appeared in 1887, and comprised of a half-anna red and a 1 anna green, printed from single dies. Neither stamp is known used on cover. In 1889 a new forged half-anna appeared and was in use until 1891.
